

Integrating your TiHo account into your iPhone

To be able to access the TiHo mailbox and calendar entries from your iPhone, please go to the **“Settings menu”** and select the sub-item **“Mail, Contacts, Calendar”**.

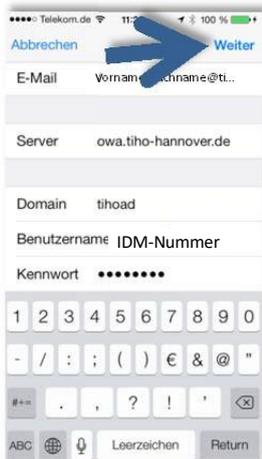

Next, please click on **“Add account”** and then **“Exchange”**.

Fill in the fields in this window as shown and confirm with the **“Next”** button.

An error message will now appear. Please choose the **“Continue”** option.

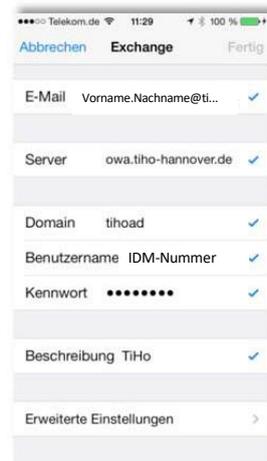

Please complete the following information:

- Server: „**owa.tiho-hannover.de**“
- Domain: „**tihoad**“
- Username: your IDM-number
- Password: your TiHo-password

Please log in a second time by clicking on the “**Continue**” button.

The iPhone will now check the settings.
It should then look like this:

If the check is not successful, please check whether the settings under “**Advanced settings**” correspond to this screen.

The iPhone is now linked to your account and all e-mails, calendars, tasks and contacts are displayed on the iPhone.
