Analysis of the evaluation forms for extramural EPT in clinics/practices during the practical year

### **Practical part of veterinary education**

- According to § 57 (1) and (2) TAppV, veterinary medicine students must participate in practical training in curative practice
  - First part: 150 hours over a minimum of 4 weeks
  - Second part: 700 hours over a minimum of 16 weeks
- At TiHo, the second part is usually conducted for one half at a university clinic or another university facility.
- The analyzed evaluation forms were used exclusively to assess Elective Practical Training (EPT) with external EPT providers.
- Students fill out one evaluation form per EPT
  - > Multiple forms per student

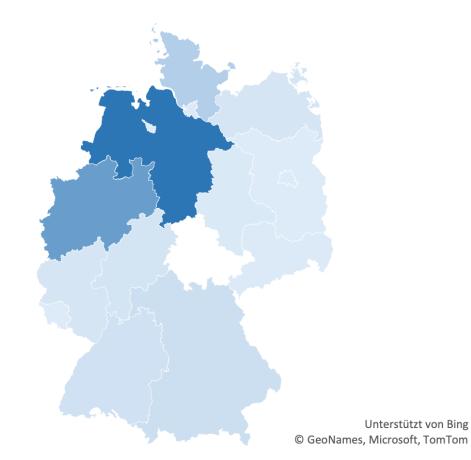

#### **General information on the analysis**

- Analyzed were the evaluation forms from two cohorts of students who were in their practical year in 2021-2022 and 2022-2023
- Total number of forms: 1507
- Number of complete forms: 1451 (96.3%)
- Number of individual students: 489

Information on EPT

## Additional qualifications of supervising veterinarian – Specialty, Focus (n = 704, multiple responses possible)

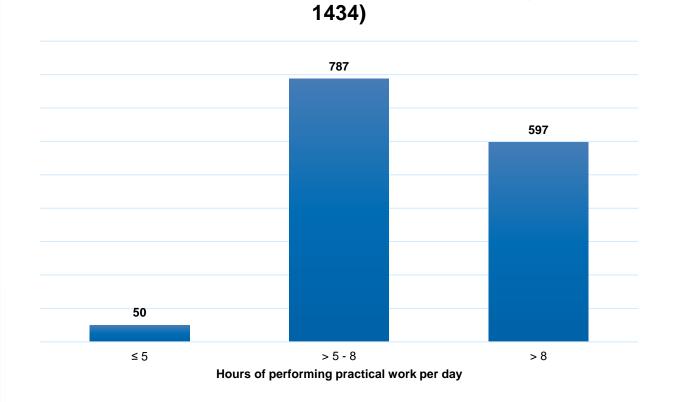

#### Animal species treated during the EPT (n = 1499, 20 most frequently mentioned species)

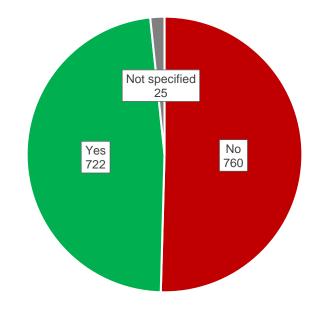

#### **Working conditions**

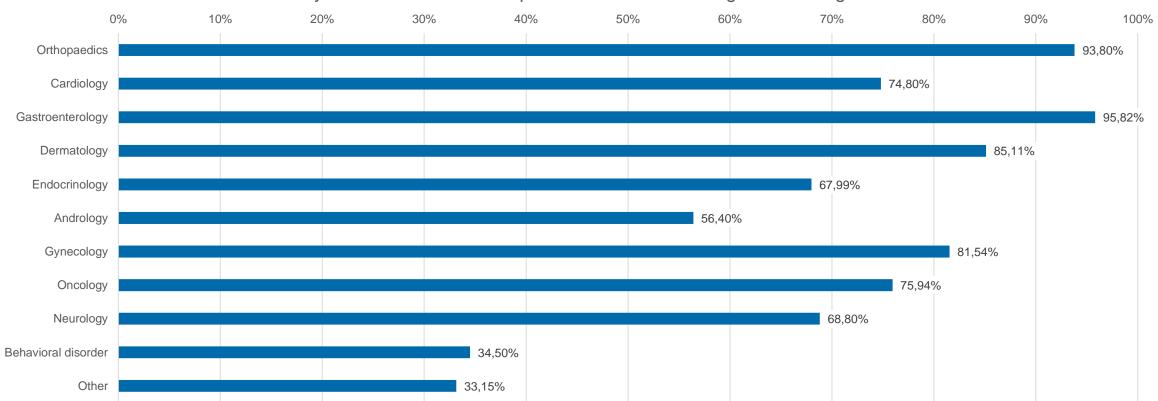

.....

Hours of practical activities performed daily (n =

Inclusion into the emergency service (n = 1507)

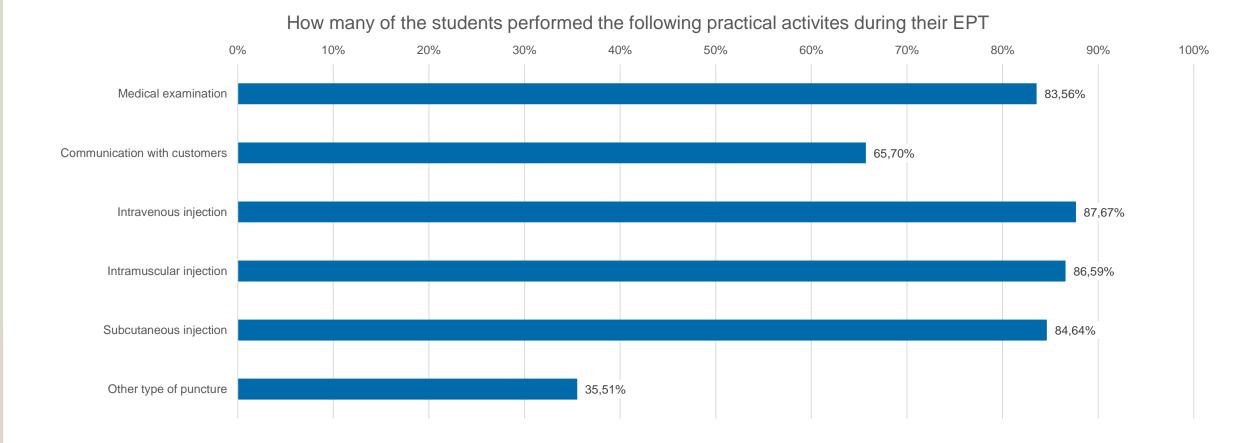

How many of the students treated patients from the following areas during their EPT

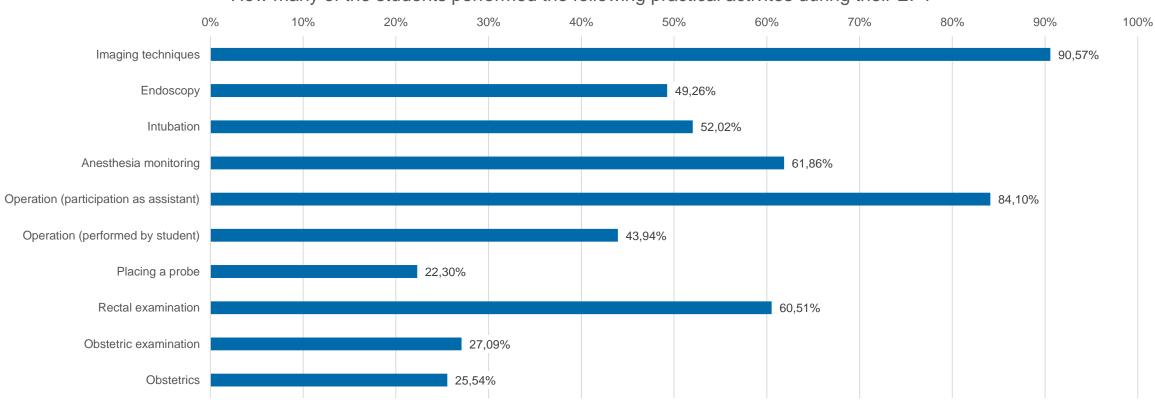

.....

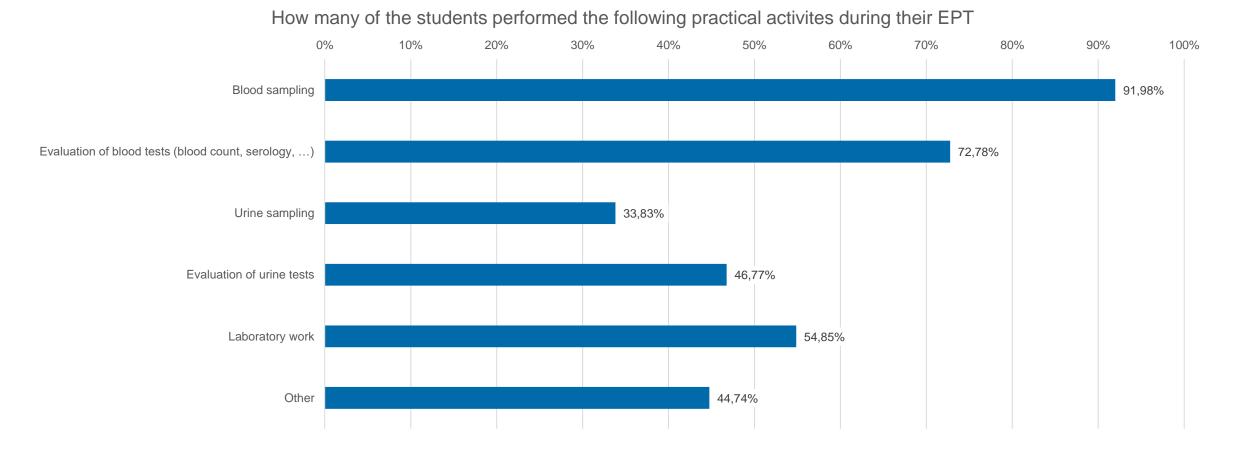

......

How many of the students performed the following practical activites during their EPT

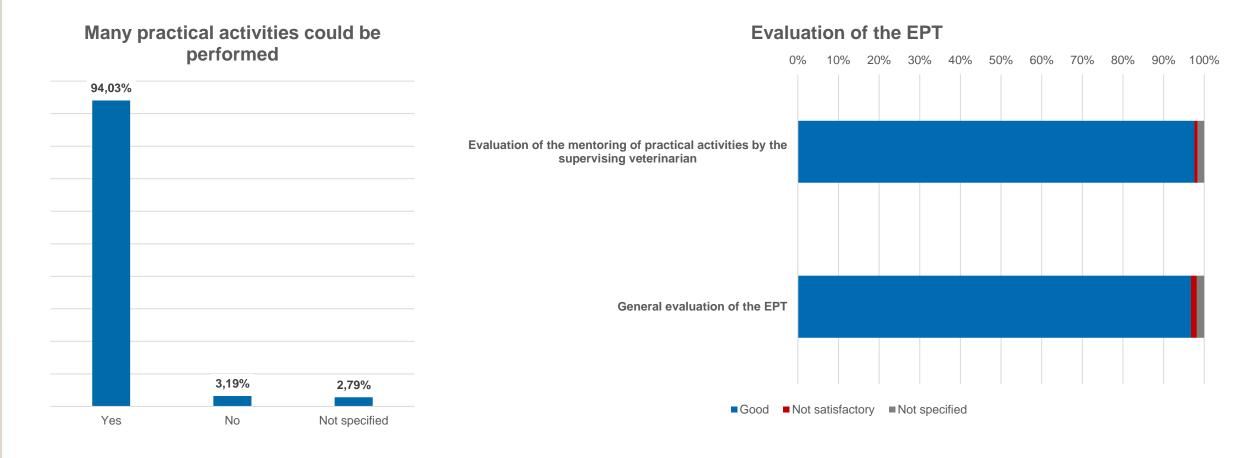

#### **Evaluation by students**

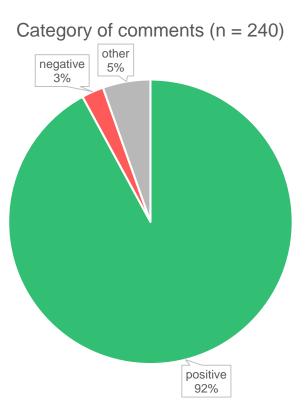

**Evaluation of the EPT by students (n = 1507)** 

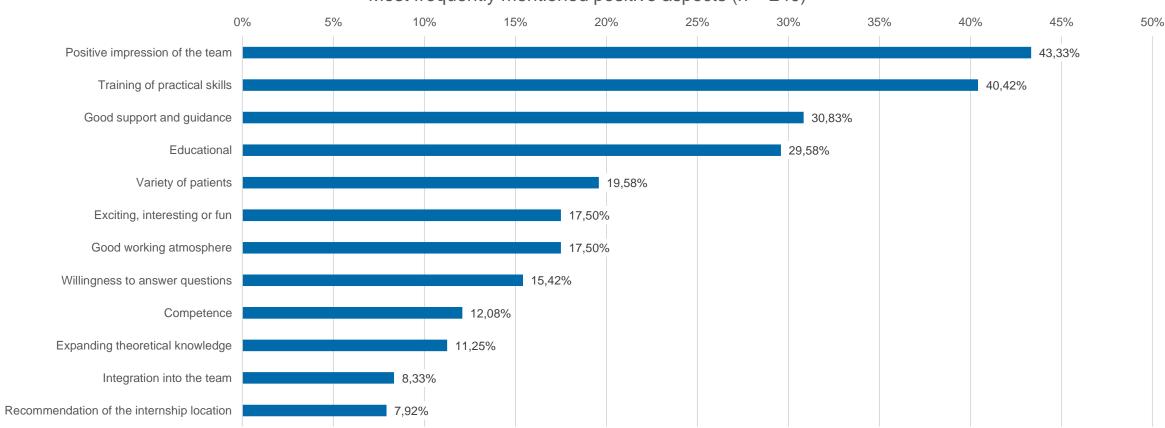

#### **Evaluation of the EPT by students - Comments**

- Number of comments students left on evaluation forms: 240 (15.93% of all forms)
- 92.08% of those comments were positive

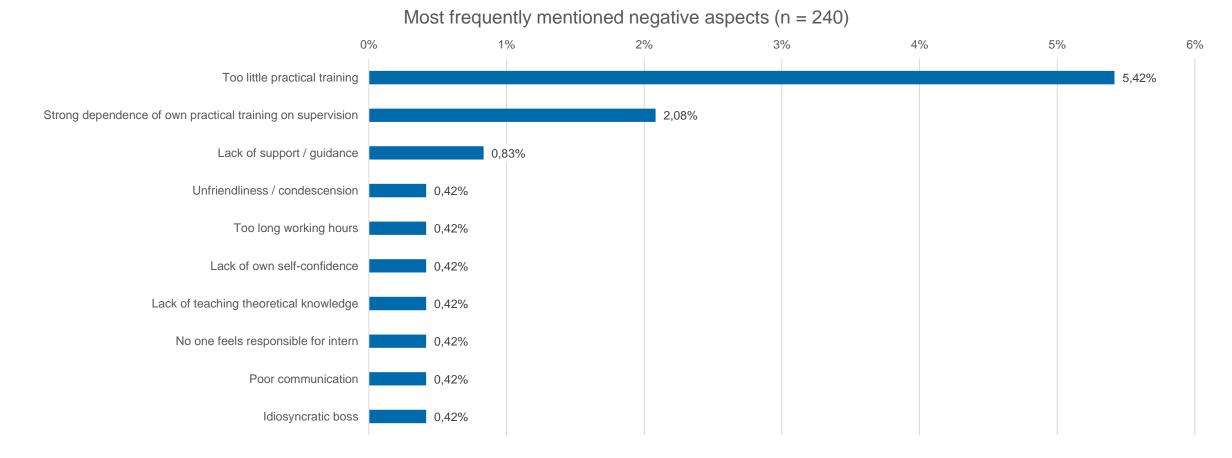

#### **Evaluation of the EPT by students - Comments**

Most frequently mentioned positive aspects (n = 240)

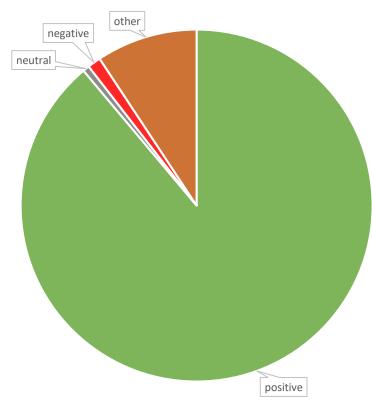

#### **Evaluation of the EPT by students - Comments**

### **Evaluation of the students by the supervising veterinarian - Comments**

- Number of comments the supervising veterinarian left on evaluation forms: 975 (64.7% of all forms)
- 90% of those contain positive aspects
  - 110 veterinarians offer the specific student a job
  - 40 veterinarians recommend the student for other employers

#### Evaluation of the students by the supervising veterinarian – comments (multiple responses possible)

"Other"

- n = 92 (9.3%)
- e.g. Reference to an attachment

Negative comments

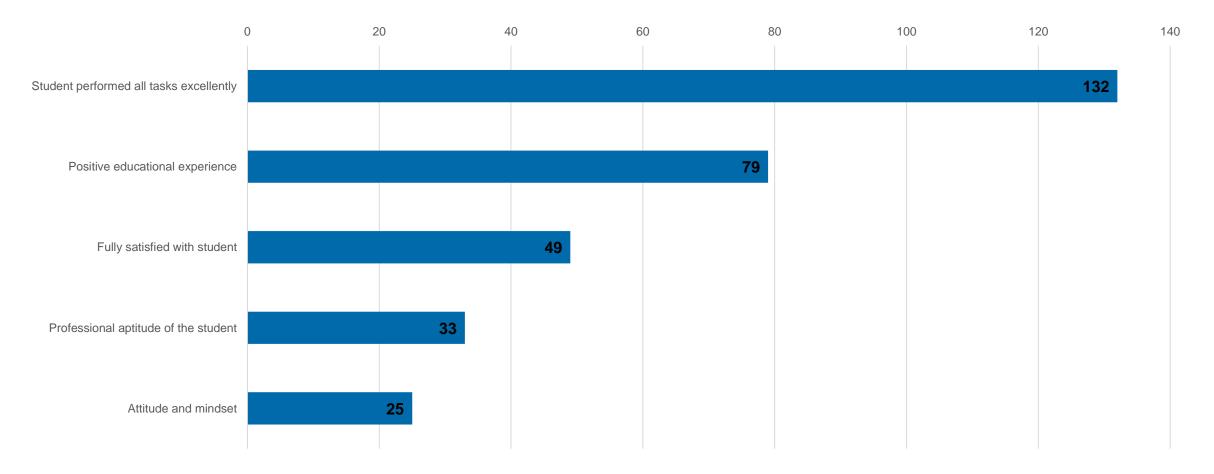

- n = 12 (1.2%)
- double or single entries (e.g. Students were shy (n = 2))

Neutral comments

- n = 6 (0.6%)
- e.g. confirmation of EPT period

### Evaluation of the students by the supervising veterinarian – Positive comments (n = 880, multiple responses possible)

### Evaluation of the students by the supervising veterinarian – Particularly praised abilities and skills of the students (n = 880, multiple entries per category possible)
