

Basic Equine Arthroscopy and Tenoscopy Course

18 & 19 March 2026 – Hannover (Germany)

Join us for the basic equine arthroscopy and tenoscopy course in Hannover coming spring! The course includes presentations on applied anatomy and arthroscopic techniques, as well as in-depth case presentations and discussions (see preliminary schedule on the next page). Four wet-lab sessions will provide substantial time to put this into practice in small groups under the guidance of experienced instructors.

Instructors:

- Prof. Dr. Florian Geburek, DECVS (TiHo Hannover, Ger)
- Dr. Bruce Bladon, DECVS (Donnington Grove Veterinary Group, UK)
- Dr. Nicole Verhaar, DECVS (TiHo Hannover, Ger)
- Dr. Andrea Noguera, DECVS (Hanseklinik, Ger)
- Prof. Dr. Christoph Lischer, Dipl. ECVS (FU Berlin, Ger)

Preceding this course, an advanced arthroscopy course will take place at the same facility, that can be booked separately or in combination with the basic arthroscopy course.

PRACTICAL INFORMATION

- Date: 18 & 19 March 2026
- Location: Clinic for Horses, University of Veterinary Medicine Hannover
