

Quality assurance in study and teaching

Objective

The TiHo offers its students excellent training in all areas of veterinary medicine and animal biology in an environment ranging from basic to practical clinical education. For this purpose, the TiHo adjusts the curriculum in a constant dialogue with the students, the teachers and the profession within the scope of the legal possibilities to new professional and social challenges. The aim of the TiHo is to provide students with the ability to think and solve themselves and to prepare them for lifelong learning.

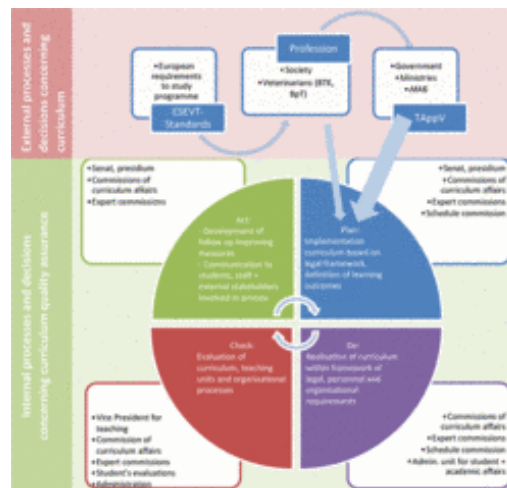

Organisation of quality assurance

Quality Assurance is part of the board position for "Strategic development, University Controlling and Quality Management" and includes

- Accreditation and development of study programmes on the Basis of [Standards and guidelines for quality assurance in the European Higher Education Area \(ESG\)](#)
- Calculation of capacity of study places for the 1st semester
- Coordination of the Agreement on Objectives with the government of Lower Saxony
- Official higher education statistics

Process of quality assurance

The continuous process of improvement of the study programmes and their organisation is performed by the TiHo together with internal and external stakeholders.

Instruments of quality assurance

- [Agreement on Objectives with government of Lower Saxony](#)
- [Continuous review process of TiHo](#) for improving the study programmes and their organisation
- External evaluation of the study programmes by agencies:
 - [Study programme Veterinary medicine \(state exam\) by EAEVE](#)
 - [MSc Animal Biology and Biomedical Sciences by ZEvA](#)
- Internal evaluation of courses by students in all study programmes (results see teaching reports)
- Didactic courses for teachers:
 - Course "Professional Teaching"
 - Support for teachers by e-learning consulting
