

Jobs

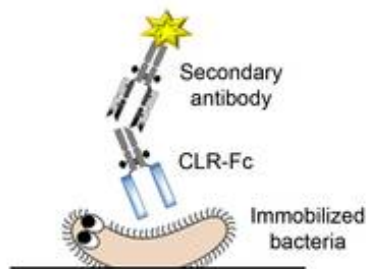

Internships, BSc theses, MSc theses

Applications for **internship, BSc and MSc theses** are always welcome!

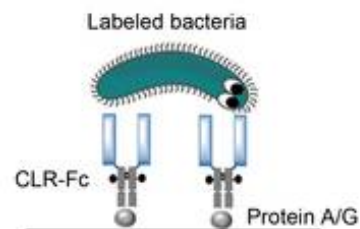

The **Infection Immunology** group focuses on the role of C-type lectin receptors in pathogen recognition and innate immunity (see figure and **Research** for more details). We employ a variety of methods including molecular biology techniques, biochemical and immunological methods as well as mouse models of infection and autoimmunity.

If you are interested, please contact [Prof. Dr. Bernd Lepenies](#) and send your CV and relevant certificates.

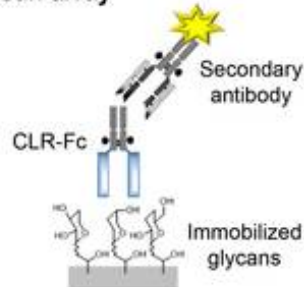

ELISA-based assay

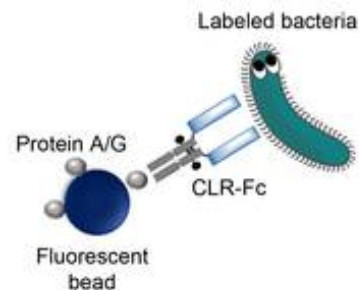

Lectin array

Glycan array

Bead-based assay
