

Sabrina Linn

Sabrina Linn, MSc.

Doctoral student

Project: Vocal communication in the Southern White Rhinoceros (*Ceratotherium simum simum*) and the impact of sex hormones.

My main interest lies in animal behaviour with a focus on acoustic communication and the effects of hormones on the vocal behaviour. Currently, I am particularly interested in how steroid hormones influence the vocal communication of rhinoceroses.

Sabrina Linn, MSc.

Professional and scientific career

since 04/2014

Doctoral student at the University of Veterinary Medicine, Hannover, Germany

Doctoral Thesis: "Vocal communication in the Southern White Rhinoceros (*Ceratotherium simum simum*) and the impact of sex hormones" Supervisor: Prof. E. Zimmermann, Prof. M. Böer

since 03/2014

Research assistant at the Institute of Zoology, University of Veterinary Medicine, Hannover, Germany: Co-supervision of courses for biology students and co-supervision of master/ bachelor theses

08/2013 11/2013

Research assistant at the Institute of Zoology, University of Veterinary Medicine, Hannover, Germany: Bioacoustic analyses

10/2012 02/2013

Research assistant at the Institute of Zoology, University of Veterinary Medicine, Hannover, Germany: Co-supervision of functional morphology course for biology bachelor students

07/2012-10/2012

Internship in the scientific department of the Frankfurt Zoo, Germany

02/2012-04/2012

Internship in the scientific department of the Landau Zoo, Germany

2011 2013

Study of Animal Biology and Biomedical Sciences at the University of Veterinary Medicine, Hannover, Germany (Master of Science)

Master Thesis: "Mother-offspring communication in grey mouse lemurs (*Microcebus murinus*) during reunions"

06/2011-09/2011

Internship in the scientific department of the Heidelberg Zoo, Germany

2008 - 2011

Study of Biology at the Ruprecht-Karls- University Heidelberg, Germany (Bachelor of Science)

Bachelor Thesis: "Verhalten Asiatischer Elefanten (*Elephas maximus*) in einer Jungbullenherde im Zoo Heidelberg"
