

PhD "Veterinary Research and Animal Biology"

Introduction

PhD program "Veterinary Research and Animal Biology" -

part of the Hannover Graduate School for Veterinary Pathobiology, Neuroinfectiology, and Translational Medicine (**HGNI**):

Your Chance in Science and Research

You have completed an outstanding undergraduate degree in veterinary medicine, human medicine, or one of the biosciences?
You intend to pursue an advanced degree?

Then you should join our **PhD program "Veterinary Research and Animal Biology"** leading to the grade of Doctor of Philosophy (PhD) or Doctor rerum naturalium ([Dr. rer. nat.](#)).

Our program offers you:

- a postgraduate program designed for approx. three years, linked to the University of Veterinary Medicine (*TiHo*) Hannover or cooperating partners
- independent research in a highly demanding project
- support by a supervision group
- gain of knowledge associated to the project
- gain of basic knowledge and skills as establishment of a reference data base, oral presentation, scientific writing, job interview or winning proposal, e.g
- presentation of results at an international congress, seminar or workshop.

Interested?

Please contact us, we will provide you with detailed information.
